QUALITY ON TIME

Safe transportation of containers at ports and terminals

Terminal trailers are designed for transporting ISO containers in ports. The trailer has gravity container stops installed to prevent containers from moving during the transportation.

Customized solution

The Novatech terminal trailer is manufactured standard for transporting between 50 - 70 ton loads however these capacities can be adapted according to the actual requirements of the customer. Novatech manufacture one axle or two axle trailers depending on the customer's needs and required capacity. As standard: 50-60 ton capacity are one axle trailers and 65-70 ton are two axle with either spring or rocker arm suspension. The terminal trailer is designed for transporting 1 x 20ft, 2 x 20ft, 1 x 40ft, 1 x 45ft containers.
