

What we say is what we do

**LIFTING TRAILER FOR
CONCRETE INDUSTRY**

LIFTING TRAILER

FOR CONCRETE INDUSTRY APPLICATION

TRANSLIFTER / FLEXMASTER

- Self-loading trailer with steerable bogie
- Computer controlled
- Lifting height of the trailer adapted to the height of the transport brackets and the height of the road truck
- Ideal for concrete industry operations with limited space maneuverability
- Used for transportation of large volumes of concrete elements across production plant in a continuous cycle
- Reduced handling damage to concrete elements
- Safe and easy operation with autosteering under cassette

HYDRAULIC LIFTING TRAILER

- Self-loading trailer with fixed bogies
- Manual hydraulic controlled lifting solution

Flexmaster

Flexmaster

Flexmaster

CAPACITY	HYDRAULIC LIFTING TRAILER	TRANSLIFTER / FLEXMASTER
20 - 50 ton	X	X
50 - 70 ton	X	X
70+ ton		X

Translifter

CASSETTE SYSTEM

FOR CONCRETE INDUSTRY APPLICATION

Cassette

CASSETTE

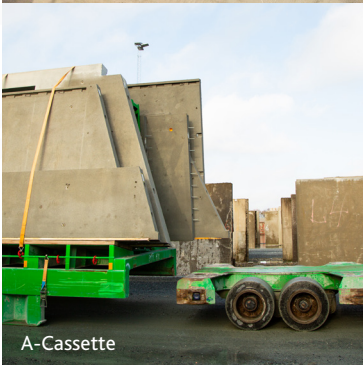

- Platforms used for panel, pipe, precast and prestressed transportation
- Possibility of easily arranged intermediate storage between the processing points

A-Cassette

SPECIAL CASSETTE

- Tailored platform to secure the load safely in internal logistics

A-Cassette

A-Cassette

A – CASSETTE

- Platforms with upper structure, equipped with concrete elements protection
- Safe and easy transport and warehousing
- Low height of cassette for easy access in production
- Minimized handling damages

TRANSPORT BRACKETS

- Effective solution, concrete elements can be loaded/unloaded independently of the lifting trailer
- Easy pick up by road truck, the legs of the brackets are dismantled by the driver
- Easy warehousing, no need for cranes
- Minimum manpower
- Reduced handling damage to concrete elements

Transport Brackets

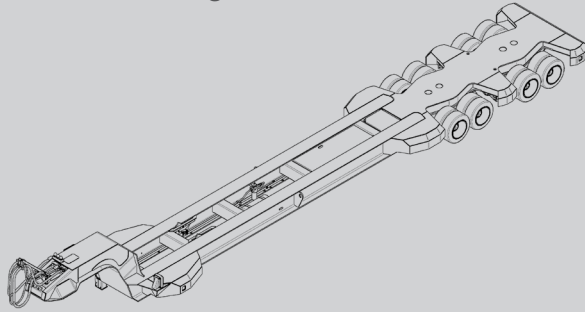

Transport Brackets

LIFTING TRAILERS

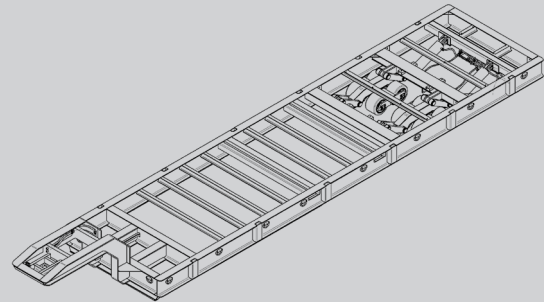

TRANSLIFTER / FLEXMASTER

- Capacity 20-50 ton, 50-70 ton or 70+ ton payload
- One or two steerable bogie, hydraulic operated
- Solid or pneumatic tires
- Safe and easy operation with autosteering under cassette

HYDRAULIC LIFTING TRAILER

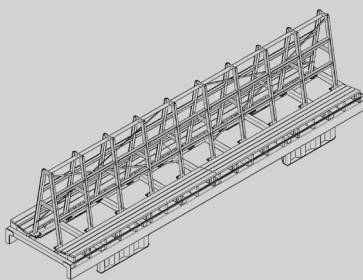

- Capacity 20-50 ton or 50-70 ton payload
- Hydraulic operated
- Fixed bogies
- Solid or pneumatic tires

CASSETTE SYSTEM

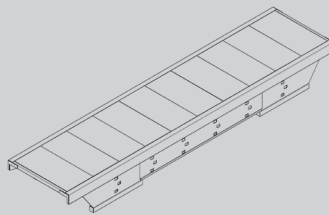

A-CASSETTE

- Capacity 60 ton payload
- Nylon protection elements
- Low height for easy access

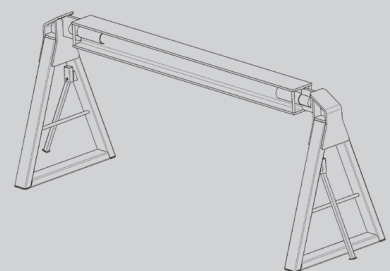

CASSETTE

- Capacity 20 -150 ton payload
- Standard and special solutions

TRANSPORT BRACKETS

- Capacity 25 ton
- Dismountable legs
- Height adapted to height of road truck

NT GROUP CONSIST OF NOVATECH APS (DK), NT LIFTEC OY (FI), BAASTRUP VOGNEN APS (DK), NT INDUSTRY SP. Z O.O. (PL), NOVATECH POLSKA SP. Z O.O. (PL). WE DESIGN AND MANUFACTURE CUSTOM-MADE HEAVY DUTY EQUIPMENT FOR HORIZONTAL TRANSPORTATION WITHIN MARINE-, OFFSHORE AND INDUSTRIAL SEGMENTS IN A GLOBAL ENVIRONMENT.
